All prints and copies generated by the KIP 900 Colour Series systems deliver the highest image durability and are fully lightfast; they will not fade or exhibit colour deterioration from exposure to light over extended periods. The CMYK dry toner system employed by the KIP 900 Colour Series produces 100% waterproof images that are suitable for outdoor applications, even in inclement weather.

The KIP 900 Colour Series systems are a comprehensive wide format solution for a range of printing tasks spanning from architectural, engineering, and construction documents — to maps, posters and signs — without sacrificing quality or performance.
